#### Description:

Manthorpes' range of fire rated access panels provide various sizes of protected openings in ceilings and walls for access to building engineering services such as:

- Electrical Wiring Systems
- Fuse Boxes / Switches
- Controls / Connection Links
- Valves / Stopcocks / Plumbing

Each fire rated access panel includes a 'Square Lock & Key' to restrict unwanted access and is fire rated for up to 1 hour. The door is finished in powder coated white and can be over painted to blend with the surrounding surface.

The fire rated panel is a high quality, robust solution suitable for everyday use with all the discrete advantages required of an access panel.

The GL151F, GL131F and GL451F fire rated doors come complete with a Euro cylinder key lock for additional security.

#### Dimensions table

Product code	A (mm)	B (mm)
GL150F	200	150
GL130F	300	300
GL450F	450	450
