

### Thermal Cavity Closer

CODE **G241**

#### Description:

The Manthorpe G241 Profile Cavity Closer suits standard vertical cavity details and sill details. It provides an economical solution to cold bridging problems and is available in a range of sizes to suit varying cavity widths. It can easily be installed with no special fixing requirements or tools.

The Manthorpe G241 Cavity Closer not only provides a thermal break to the cavity but also acts as an effective vertical DPC barrier.

It meets all building regulations and achieves the required U value at the reveal of door and window openings when the frames are fixed to allow a 15mm overlap into the cavity. This overlap can be reduced depending on the surrounding construction. For further fitting details on how to calculate this required overlap see BRE Information Paper IP 17. For detailed fitting instructions see product information sheet MBP 8239.

	Extrusion	Insulation
COLOUR/S	WHITE	YELLOW
PACKING DETAILS	6 lengths per pack	
MATERIAL	UPVC	CFC and HCFC Free rigid extruded polystyrene insulation block
MANUFACTURING PROCESS	Extrusion	Extrusion
K VALUE	0.029 W/mk	

PRODUCT CODE	DIMENSION REFERENCE "A"	WEIGHT PER PACK
G241/50	50 + 0 – 2mm	6.0 kg
G241/65	65 + 0 – 2mm	6.2 kg
G241/75	75 + 0 – 2mm	6.4 kg
G241/90	90 + 0 – 2mm	6.6 kg
G241/100	100 + 0 – 2mm	6.8 kg

Intermediate sizes up to 150mm to order.
